## General Marking Principles for Higher French Listening

*This information is provided to help you understand the general principles you must apply when marking candidate responses to questions in this Paper. These principles must be read in conjunction with the detailed marking instructions, which identify the key features required in candidate responses.*

- (a) Marks for each candidate response must always be assigned in line with these General Marking Principles and the Detailed Marking Instructions for this assessment.
- (b) Marking should always be positive. This means that, for each candidate response, marks are accumulated for the demonstration of relevant skills, knowledge and understanding: they are not deducted from a maximum on the basis of errors or omissions.
- (c) If a specific candidate response does not seem to be covered by either the principles or detailed Marking Instructions, and you are uncertain how to assess it, you must seek guidance from your Team Leader.
- (d) Award a mark to each answer. Marks are not transferable between questions and the answers for each question must come from the Item.
- (e) The marks available in this Paper are as follows:
  - (i) The first set of questions from Item 1 (worth 7 marks) and all questions from Item 2 require candidates to provide answers based on comprehension of information from the passage. The marks available for each question generally range between 1-2 marks.
  - (ii) The last question from Item 1 is the overall purpose question worth 1 mark. This is always a supported question. In this paper the question is presented in the form of a grid. Where a candidate ticks two or more boxes award zero marks.
- (f) For questions that ask candidates to 'state' or 'give', candidates must give a brief, accurate response/name.
- (g) The Marking Instructions indicate the essential idea that a candidate should provide for each answer. We use the term "or any other acceptable answer" to allow for the possible variation in candidate responses. Credit should be given according to the accuracy and relevance of candidate's answers. Candidates may be awarded marks where the answer is accurate but expressed in their own words.

## General Marking Principles for Higher French Writing

*This information is provided to help you understand the general principles you must apply when marking candidate responses to questions in this paper. These principles must be read in conjunction with the detailed Marking Instructions, which identify the key features required in candidate responses.*

- (a) Candidates will write 120-150 words in a piece of extended writing in French addressing a stimulus of three questions in French.
- (b) Marks for each candidate response must always be assigned in line with these general marking principles and the detailed Marking Instructions for the writing task.
- (c) For each of the types of writing (*Directed Writing or Writing*), the marker should select the pegged mark that most closely describes the candidate's performance.
- (d) Marking should be holistic. There may be strengths and weaknesses in the piece of writing; markers should focus as far as possible on the strengths, taking account of weaknesses only where they significantly detract from the overall impression. Marks should be awarded for the candidate's demonstration of ability in the three main characteristics in writing:
  - (i) content
  - (ii) accuracy
  - (iii) language resource - variety, range, structure
- (e) Markers can award the highest pegged mark for writing even if there are minor errors. These should not detract from the overall impression.
- (f) Candidates may display ability across more than one pegged mark descriptor. Markers should recognise the closeness of the pegged mark descriptors and consider carefully the most appropriate overall pegged mark based on the candidate's performance.

The table below gives further guidance to markers. If:

the candidate exceeds the recommended word count	This in itself need not be important, although it is important to be clear that it is possible to attain top marks, if the writing does not exceed 120 words. It is important to assess what has been written - sometimes by exceeding the word count the candidate's control of the language deteriorates and this has to be reflected in the mark awarded.
some parts of the writing fit into one category but others are in the next, lower category	If the better sections contain more sophisticated language, it may still be appropriate to choose the higher mark. However, if the better sections contain relatively basic constructions and attempts to use more sophisticated language are unsuccessful, then it is most likely that the writing is at the 6/4 interface and the Marking Instructions should be used to help the marker come to a final decision.
the marker is having great difficulty in deciding whether the writing is good enough to pass or not quite good enough to pass	It is essential to consider carefully the accuracy of the verbs overall. If more verbs are correct than wrong, then it is likely that the candidate deserves to pass, unless there are many other inaccuracies in the writing.
